The existing TA requests are completed. The cleanup is not completed and I suspect there will be more TA requests in the future.

Subject: R8 related research/tech support activities

In addition to HF and Pavillion, I know we have other Region 8-related research and technical assistance activities. If you have any summary materials regarding ongoing collaborations with Region 8, please send them to me as soon as you can. ORD and NRMRL management are going to be visiting with Region 8 senior management and I want to keep them apprised of these other activities.
